

Kinghelm®

Per formance

- 1、 Rated current:2.0A
- 2、 Voltage rating:12V
- 3、 Withstand voltage:500V
- 4、 Contact resistance:<30 M
- 5、 Lnsulation resistance:500 M
- 6、 Oprating Temperature:-40 ~85

Technical requirements:

1. Appearance: The product surface should be smooth and undamaged, with uniform color and good appearance, free from obvious dents, flash, missing material, silver streaks, weld lines and other defects.
2. Material: Hardware: Phosphor bronze gold-plated 1U; Plastic: PPS.
3. Color: Coffee.
4. Surface: Clean and free of stains.
5. Not specified. Unspecified dimensional tolerance ± 0.2 .
6. Dimensions: Inspection results should conform to the drawing standard requirements.

Product name

BS-8

Part number:

KH-BS-8-SMT

Material:

The hardware is 0.2% phosphor bronze, and the plastic is FPS.
